Important Questions	Answers	Why this Matters:
What is the overall deductible ?	\$ 0	The EAP is provided by your employer to assist you with any personal concern that may affect your job performance. There is no deductible because there is no cost to you.
Are there other deductibles for specific services?	\$0	The EAP is provided by our employer to assist you with any personal concern that may affect your job performance. There are no deductibles.
Is there an out-of-pocket limit on my expenses?	No	There are no charges to you for EAP services, so there is no need for a limit on your expenses to them. When services outside the scope of the EAP are required to address your concern, you will be referred for those outside services.
What is not included in the out-of-pocket limit ?	Not applicable	Not applicable because there is no out-of-pocket limit on your expenses.
Is there an overall annual limit on what the plan pays?	No	The chart on page 2 describes any limits that may be applicable.
Does this plan use a network of providers ?	Yes	The EAP has a defined process for accessing services. For information on this process, call 402-398-5566 or 1-888-847-4975.
Do I need a referral to see a specialist ?	No	The EAP does not cover specialists. If the EAP provider determines that you need treatment from a specialist, he/she will refer you to your group health plan or appropriate treatment resources in the community.
Are there services this plan doesn't cover?	Yes	See the chart on page 2 for information about excluded services.

CHI Health Employee Assistance Program

Coverage Period: 01/01/2019 – 12/31/2019

Coverage for: Employee + spouse + dependents

Summary of Benefits and Coverage: What this Plan Covers & What it Costs

Plan Type: Employee Assistance Program (EAP)

- **Co-payments** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- **Co-insurance** is *your* share of the costs of a covered service, calculated as a percent of the **allowed amount** for the service. For example, if the plan's **allowed amount** for an overnight hospital stay is \$1,000, your **co-insurance** payment of 20% would be \$200. This may change if you haven't met your **deductible**.
- The amount the plan pays for covered services is based on the **allowed amount**. If an out-of-network **provider** charges more than the **allowed amount**, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the **allowed amount** is \$1,000, you may have to pay the \$500 difference. (This is called **balance billing**.)
- This plan may encourage you to use network providers by charging you lower **deductibles**, **co-payments** and **co-insurance** amounts.

Summary of Benefits and Coverage: What this Plan Covers & What it Costs

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include **premiums**.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or preexisting condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network **providers**. If the patient had received care from out-of-network **providers**, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how **deductibles**, **co-payments**, and **co-insurance** can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

- ✗ **No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

Does the Coverage Example predict my future expenses?

- ✗ **No.** Coverage Examples are **not** cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your **providers** charge, and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

- ✓ **Yes.** When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

Employee Assistance Program

Coverage for: Employee + spouse + dependents

Summary of Benefits and Coverage: What this Plan Covers & What it Costs

Plan Type: Employee Assistance Program (EAP)

✓ **Yes.** An important cost is the **premium** you pay. Generally, the lower your **premium**, the more you'll pay in out-of-pocket costs, such as **co-payments**, **deductibles**, and **co-insurance**. You should also consider contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
