

Commercial Robbery Prevention

One of the dangers of operating a business is the threat of armed robbery. Use these Crime Prevention Tips to help protect your business and your employees from an armed robbery.

Before A Robbery

- ◆ Keep your front doors and windows clear of signs and posters to allow for two-way visibility. Trim landscaping to ensure employees can see outside the business and customers can see inside the business.
- ◆ Keep the outside of your business well-lit at night. Ensure there is sufficient lighting all the way around the property, including any rear or side alleyways.
- ◆ Install video surveillance and make its existence well known to customers. Use cameras or mirrors to observe all areas of the store and try to avoid any "blind spots." The equipment should allow for a 360-degree view of the exterior.
- ◆ Place a surveillance camera behind the cash register and facing the front counter.
- ◆ Maintain a clean environment – it's good for business and uncomfortable for robbers.
- ◆ Post signs indicating "limited cash on hand."
- ◆ Greet everyone who enters. Be alert for customers who seem to be loitering or glancing around the store without a clear purpose.
- ◆ DO NOT allow your employees to congregate in one area. Ensure they are spread out and aware of their surroundings.
- ◆ If you see someone who is acting suspiciously inside or outside, call the police to investigate.
- ◆ Keep side and back doors locked. Have employees use the main entrance, if possible.
